Ready to Transform Your Documentation Workflow?

Check out Dozie ProviderNotes: An AI Scribe & Progress Note Writer

The Essential Platform
for Health Care Providers

**Simplify Documentation,
Elevate Care.**

- ✓ In-Depth Therapy Notes and Assessments
- ✓ Integrated Progress & Outcome Tracking
- ✓ Multi-Disciplinary Team Clinical Rounds
- ✓ Psychotropic Medication Monitoring

Overview

We're Optimizing Clinical Documentation Workflow for Contemporary Medical Providers

Dozie ProviderNotes™ captures the clinical narrative in real time, structures it into professional medical documentation, and generates compliant, EHR-ready visit notes in seconds. Providers stay fully in control with human-in-the-loop review before exporting the final encounter report as a polished PDF. Dozie ProviderNotes™ eliminates administrative burden and restores time back to clinicians. With real-time AI scribing, specialty-aware note generation, and automated risk assessments, it delivers fast, consistent, defensible documentation—every time.

Our Solution

Dozie ProviderNotes™ Delivers Accurate, Structured Clinical Notes

- Captures and structures patient-provider conversations
- Generates SOAP, HPI, ROS, MSE, Risk Assessments, Treatment Plans, and more
- Automatically aligns with EHR standards and specialty workflows
- Eliminates manual typing, dictation, and after-hours charting
- Ensures documentation meets clinical, regulatory, and billing requirements

Target Beneficiaries

- Physicians
- Nurse Practitioners
- Physician Assistants
- Behavioral Health Providers
- Clinics, hospitals, and telehealth organizations

How It Fits Into Your Workflow

AI-driven, human-reviewed, and built for real clinical environments.

From Encounter to Final Note in Four Steps

1. **Capture**– Dozie ProviderNotes™ listens to the patient–provider conversation and captures the clinical narrative in real time.
2. **Review Text**– The provider reviews, edits, and accepts the captured audio that is transcribed to text
3. **Structure**– The tool structures the text content into SOAP, HPI, ROS, MSE, Risk Assessments, Treatment Plans, and more, as needed.
4. **Review**– The provider reviews and edits the draft as a human in the loop, maintaining full clinical control.
5. **Export**– Final notes are exported as PDF and/or pushed into the EHR in the required encounter format.
6. **Built for Busy Clinics**

KEY FEATURES

Real-Time Scribing

Transforms spoken dialogue into structured clinical content as the encounter unfolds.

Specialty-Aware Note Generation

Optimized templates for:

- ✓ Primary Care
- ✓ Urgent Care
- ✓ Behavioral Health / Psychiatry
- ✓ Specialty Medicine

SOAP & Progress Notes on Demand

Produces complete, logically organized notes that reflect the provider's voice and clinical reasoning.

Automated Risk & Safety Assessments

Ideal for psychiatric and behavioral health encounters:

- ✓ Suicide Risk
- ✓ Violence Risk
- ✓ Substance-Use Risk
- ✓ Safety Planning

EHR-Ready Formatting

Export seamlessly into:

- ✓ PDF, Epic, Cerner, Athena
- ✓ Other major systems

Compliance-First Architecture

Built with privacy, security, and documentation integrity at its core—fully HIPAA aligned.

PROVIDER BENEFITS

Why Clinicians Choose Dozie ProviderNotes™

- Cuts documentation time by **75–90%**
- Reduces burnout and after-hours charting
- Improves note quality, consistency, and defensibility
- Enhances patient engagement by keeping providers present
- Supports accurate coding and billing with structured, complete documentation

Deployment Model

Delivered as a secure HIPAA compliant cloud service with:

- Annual subscription
- Transaction-based pricing
- API-based integration for volume license
- On-demand single user dashboard

Impact

A faster, clearer, more human clinical experience—where providers focus on delivering exceptional patient outcomes, not wrestling with paperwork.

Trust Indicators

- ✓ 200% Faster Patient Report
- ✓ AI Driven Accuracy
- ✓ Enterprise Grade Security
- ✓ HIPAA Aligned Intelligence
- ✓ Dozie ProviderNotes does not store your data
- ✓ CISO verified Confidentiality, Integrity and Availability
